2/25: 9:30 am - 6:00 pm

2/26: 9:30 am - 4:15 pm

Record Locator and Exchange

This collaborative demonstration will feature various clinical vignettes, including an unresponsive patient presenting to the emergency department and another patient presenting to a specialist without advance warning. These scenarios illustrate the critical role the record locator plays in ensuring a care provider has the most vital patient information accessible at the point of care.
